Professional Summary

Data-driven professional with 4+ years of experience leading cross-functional projects. Skilled in SQL, Python, Excel, and Power BI, with hands-on experience in data analysis, visualization, and deriving business insights. Actively transitioning into a data analyst role.

Skills

Languages & Tools: SQL, Python (Pandas, NumPy, Matplotlib), Power BI, MS Excel (PivotTables, VLOOKUP, Charts)

Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, Data Visualization, Insight Generation

Soft Skills: Stakeholder Communication, Cross-functional Collaboration, Agile Methodology, Project Coordination, Team Leadership

Data Analytics Projects

Customer Segmentation Using RFM Analysis [\[GitHub Link\]](#)

Python, Pandas, Matplotlib, Jupyter Notebook, Power BI

- Analyzed 500K+ e-commerce transactions using RFM scoring to segment customers by purchasing behaviour.
- Identified that 27% of customers contributed to 80% of revenue (Pareto principle).
- Built an interactive Power BI dashboard to visualize customer segments and sales insights.

Sales & Customer Analysis – Motogear International [\[GitHub Link\]](#)

SQL (MySQL)

- Analyzed sales data (2010–2014) across 6 countries to uncover trends in customer behavior and product performance.
- Found that bikes drove 96% of revenue and new customers contributed 37.8% of total sales.
- Segmented customers/products using KPIs like recency and AOV to guide marketing and inventory strategies.
- Created structured reports to support retention strategies and market expansion planning.

Work Experience

Senior Manager, The Narayana Group – Bengaluru, India

Feb 2022 – Jun 2024

- Built and maintained tracking sheets to monitor production workflows and reduce delays in the release of 200+ science video lectures.
- Collaborated with cross-functional teams to collect QA data across 3+ vendors and implemented a 3-step review system.
- Used Excel and structured feedback data from 200+ teachers and 1,000+ students to derive actionable insights, leading to a 90% stakeholder satisfaction rate.
- Designed a basic performance dashboard (using Excel and Power BI) to report weekly progress to leadership, improving transparency and accountability.
- Coordinated upload metrics and delivery logs for 150+ lectures on the app, ensuring 100% on-time release with zero major technical disruptions.

Senior Product Developer, Toppr – Hyderabad, India

May 2021 – Jan 2022

- Analysed student engagement metrics using Excel dashboards to measure the impact of content interventions, contributing to a 25% improvement in engagement.
- Created a centralized content accuracy tracker for 6+ team members to flag and resolve quality issues, maintaining a 95% content accuracy rate.
- Implemented Agile sprint tracking sheets and used burndown charts to reduce overall production time by 20%.

- Facilitated 150+ hours of educational content by coordinating with Tata-Sky, Airtel, and cross-functional teams for live and recorded sessions.
- Consolidated curriculum data across competitive exams (JEE, NEET, KVPY) and mapped content to exam patterns using Excel and structured rubrics.

Research Experience

Research Fellow, DAE-BRNS – Kolkata, India**Oct 2014 – Mar 2020**

- Published 4 international journal papers on high-precision energy calculations in atomic systems using extended Hylleraas basis.

Education

MSc – Physics, West Bengal State University**2012-2014**

Graduated with First Class

Certifications

CS50's Introduction to Programming with Python (CS50P), Harvard University**Apr 2025**

Completed course with hands-on assignments in Python, and a final project focused on data analysis.

Project Management Professional (PMP)®, PMI**Aug 2024**

Certification Number: 3902095
